CUSTOMER'S REVIEWS

"We are using 3 machines of Axis Enterprises from last 5 years. Whenever we had any problem they took care of it right away. We feel Axis Digital Printing Machines are value for money with good after-sales service.
-Kashyap Modi - Promoz, Kolkatta

"I visited Axis office in Ludhiana to see DTF machine, the experience was great. I am happy with my decision to buy the machine & I'd highly recommend them to anyone."
-Gaurav - Sau Group, Surat

"I am using Axis Machines since 2015 and few months back I got the latest DTF machine to expand my printing business. I would definitely say Axis DTF machine is best in market"
-Deepak - Akriti Enterprises, Delhi

FLASHJET U3200

Rated power	500 W	
Working environment	Temperature	20°-28°C
	Humidity	35%-65%
Ink type	UV curing ink	

PRODUCT CHARACTERISTICS

Craftsmanship, precision and stability

The paper feeding and pressing rollers are integrated into the rnold, and the software can freely adjust the paper pressing rollers to prevent static ink flying and uneven paper feeding, making the printing size more accurate.

8-color printing with bright colors

8-color printing, the picture is more delicate, the color gamut is wider, and the color reproduction is more accurate. Suitable for expressing high-saturation colors of often used in the advertising industry..

Versatile functions and easy operations

The control pannel has multiple functions and is easy to operate. Paper settings, lighting, heating, printing and other functions can be adjusted with one dick.

1.6 meters wide, widely used

The printing width is 1.6 meters, which is suitable for most products, such as advertising light boxes, KT boards, roll-ups, photo paper, car slickers, floor slickers, elc.

LED lighting intuitive and realistic

Equipped with LED lighting and a transparent front cover with a wider field of view, you can preview the light box effect during the printing process and confirm the printing status at any time.

Print size: 1.6M

Semi-transparent shadin

Fast printing speed

High efficiency and easy cost accounting

The printing speed can reach 20m/min (4pass) to easily handle large and urge11t orders. The software calculates the amount of ink used in detail, making it easier for users to calculate costs.
